

Medicaid is getting better!

We're making changes that will help you improve your health and your family's health.

Here are some changes you might see:

- More help staying well and being healthy
- Rewards for healthy living
- More ways for you to make choices about your health care

We know that each person has different health-care needs. And we will still be here to help you meet your health needs.

IDAHO DEPARTMENT OF
HEALTH & WELFARE

You don't need to do anything. We will send you more information. Watch for it soon!
